

Complete Postcode List for Ghana (Simplified with all towns)

Date: 17th-October-2023

Please note that Ghana employs alphanumeric postal codes. The initial two characters comprise the postal code district, with the first character denoting the region, and the second character specifying the district in which the address is situated. The subsequent three to five digits (omitted from this table) serve as the postcode area, pinpointing a more specific location within a 5-meter square area.
